

Matt Norton has been making one of a kind leather tack for horses in his spare time for several years. People come to him not only for his creative ability but also for his attention to detail in leather work that will stand the test of time.

That's the same work ethic Matt has when he's working on the production line. Craftsmanship is something Matt takes pride in ...and so do we.

We're proud Matt puts his talents to work on every product he touches. He's just one of the reasons we build Fire Trucks that are second to none. Quality, Strength and Durability,,,American Craftsmanship at it's absolute best.
