

20 Year Warranty

20 YEAR STRUCTURAL WARRANTY FOR BRUSH & QUICK ATTACK FIRE TRUCK REAR BODY

This Warranty ensures Unruh Fire's corporate or governmental purchasing customer that the Unruh Fire fire truck rear body identified by:

Serial NO _____

Truck make/VIN _____

is sold free of structural defects. All removable hardware and equipment, door, hinge, latch, lock assemblies, mechanical items, electrical components, and surface finishes are excluded from this Warranty. There are no warranties beyond those expressed upon the face hereof, upon other Unruh Fire warranties, if any, directed to components associated with said fire truck rear body, and other manufacturer's warranties, if any, directed to installed equipment.

This Warranty is limited to repairs to said fire truck rear body upon the event that Unruh Fire's examination discloses material or workmanship defects. Unruh Fire shall have the option to replace the fire truck rear body in lieu of any repair.

Provided that the fire truck rear body remains installed upon said truck, this Warranty shall expire upon the twentieth anniversary of the date of delivery. Any uninstallation invalidates this Warranty. Unruh Fire reserves the right to require any repair or replacement to be made either at an Unruh Fire affiliated service facility or at another service facility which Unruh Fire may designate at its discretion. Transportation costs to and from the designated servicing location shall be the responsibility of the customer.

Where a damaged or degraded condition of the fire truck rear body arises in connection with or occurs coincidentally with theft, vandalism, riot, explosion, fire, misuse, accidental impact, corrosion or an "Act of God" such as earthquake, lightning, windstorm, hail or flood, Unruh Fire reserves the right in any event to declare that such condition does not constitute a covered material or workmanship defect.

Loss of time, loss of use of the fire truck rear body and/or said truck, inconvenience, travel costs, lodging, food, and any other item of consequential loss which may be causally related to defects in the fire truck rear body are excluded from coverage hereunder. Nothing contained in this Warranty shall make Unruh Fire or any other person or entity liable beyond the express provisions and limitations hereof for loss, injury or damage of any kind to any person or entity.

From time to time, Unruh Fire may implement design changes directed to its manufacture of similar fire truck rear bodies, and no such change shall infer that the fire truck rear body identified above includes any covered defect.

10 Year Warranty

10 YEAR STRUCTURAL WARRANTY FOR RESCUE FIRE TRUCK REAR BODY

This Warranty ensures Unruh Fire's corporate or governmental purchasing customer that the Unruh Fire fire truck rear body identified by:

Serial NO _____

Truck make/VIN _____

is sold free of structural defects. All removable hardware and equipment, door, hinge, latch, lock assemblies, mechanical items, electrical components, and surface finishes are excluded from this Warranty. There are no warranties beyond those expressed upon the face hereof, upon other Unruh Fire warranties, if any, directed to components associated with said fire truck rear body, and other manufacturer's warranties, if any, directed to installed equipment.

This Warranty is limited to repairs to said fire truck rear body upon the event that Unruh Fire's examination discloses material or workmanship defects. Unruh Fire shall have the option to replace the fire truck rear body in lieu of any repair.

Provided that the fire truck rear body remains installed upon said truck, this Warranty shall expire upon the tenth anniversary of the date of delivery. Any uninstallation invalidates this Warranty. Unruh Fire reserves the right to require any repair or replacement to be made either at an Unruh Fire affiliated service facility or at another service facility which Unruh Fire may designate at its discretion. Transportation costs to and from the designated servicing location shall be the responsibility of the customer.

Where a damaged or degraded condition of the fire truck rear body arises in connection with or occurs coincidentally with theft, vandalism, riot, explosion, fire, misuse, accidental impact, corrosion or an "Act of God" such as earthquake, lightning, windstorm, hail or flood, Unruh Fire reserves the right in any event to declare that such condition does not constitute a covered material or workmanship defect.

Loss of time, loss of use of the fire truck rear body and/or said truck, inconvenience, travel costs, lodging, food, and any other item of consequential loss which may be causally related to defects in the fire truck rear body are excluded from coverage hereunder. Nothing contained in this Warranty shall make Unruh Fire or any other person or entity liable beyond the express provisions and limitations hereof for loss, injury or damage of any kind to any person or entity.

From time to time, Unruh Fire may implement design changes directed to its manufacture of similar fire truck rear bodies, and no such change shall infer that the fire truck rear body identified above includes any covered defect.

1 Year Warranty

ONE YEAR ELECTRICAL WARRANTY FIRE TRUCK REAR BODY

This Warranty ensures Unruh Fire's corporate or governmental purchasing customer that the electrical system of the Unruh Fire fire truck rear body identified by:

Serial No _____

Truck make/VIN _____

is sold free of defects. All electrical parts or components which may be installed by the customer after delivery are excluded from this Warranty. There are no warranties beyond those expressed upon the face hereof, upon any other Unruh Fire warranties, if any, directed to said fire truck rear body, and other manufacturer's warranties, if any, directed to installed equipment.

This Warranty is limited to repairs to said electrical system upon the event that Unruh Fire's examination discloses material or workmanship defects. Unruh Fire shall have the option to replace electrical parts and components in lieu of any repair.

Provided that the fire truck rear body remains installed upon said truck, this Warranty shall expire upon the first anniversary of the date of delivery. Any uninstallation invalidates this Warranty. Unruh Fire reserves the right to require any repair or replacement to be made either at an Unruh Fire affiliated service facility or at another service facility which Unruh Fire may designate at its discretion. Transportation costs to and from the designated servicing location shall be the responsibility of the customer.

Where a damaged or degraded condition of the fire truck rear body electrical system arises in connection with or occurs coincidentally with theft, vandalism, riot, explosion, fire, misuse, accidental impact, corrosion, customer alterations, rodent infestation or an "Act of God" such as earthquake, lightning, windstorm, hail or flood, Unruh Fire reserves the right in any event to declare that such condition does not constitute a covered material or workmanship defect.

Loss of time, loss of use of the fire truck rear body and/or said truck, inconvenience, travel costs, lodging, food, and any other item of consequential loss which may be causally related to defects in the electrical system are excluded from coverage hereunder. Nothing contained in this Warranty shall make Unruh Fire or any other person or entity liable beyond the express provisions and limitations hereof for loss, injury or damage of any kind to any person or entity.

From time to time, Unruh Fire may implement design changes directed to its manufacture of similar fire truck rear body electrical systems, and no such change shall infer that the electrical system identified above includes any covered defect.
